

Nuclear Fuel and FA Fabrication Industry in Russia and NIS, 2016

Contents

	ABOUT INTERNATIONAL BUSINESS RELATIONS, LLC (IBR™)	2
	PROJECT TEAM	2
	Contents	3
	List of Tables	5
	List of Figures	7
	INTRODUCTION	8
CHAPTER 1	RUSSIAN FA FABRICATION INDUSTRY: CORPORATE STRUCTURE AND INDUSTRIAL COOPERATION	10
	1.1 Corporate structure of the Russian nuclear fuel and FA fabrication industry	10
	1.2 Cooperation in FA fabrication in Russia	12
	1.3 Prospects for extension and upgrading of cooperation in FA fabrication	16
CHAPTER 2	CONCEPT AND PROGRAM: DEVELOPMENT OF THE RUSSIAN NUCLEAR FUEL AND FA FABRICATION INDUSTRY	18
CHAPTER 3	FEASIBILITY ANALYSIS OF THE RUSSIAN FA FABRICATION INDUSTRY DEVELOPMENT PROGRAM. IBR™ FORECAST OF THE RUSSIAN FA FABRICATION INDUSTRY DEVELOPMENT	23
CHAPTER 4	STATUS AND DEVELOPMENT OUTLOOKS FOR NUCLEAR FUEL AND FA FABRICATION BASED ON REPROCESSED URANIUM AND PLUTONIUM	28
	4.1 Status and plans on nuclear fuel and FA fabrication based on reprocessed uranium utilization	28
	4.2 REMIX fuel: Status and outlooks for Russian experimental R&D	28
	4.3 Russian uranium-plutonium fuel Program: Status and outlooks for implementation	29
CHAPTER 5	DESIGN CHARACTERISTICS OF OPERATING AND PERSPECTIVE RUSSIAN FUEL ASSEMBLIES	35
	5.1 Fuel assemblies for reactor VVER-440	35
	5.2 Fuel assemblies for reactor VVER-1000	40
	5.3 Fuel assemblies for reactor VVER-1200 (project AES-2006)	53

	5.4 Fuel assemblies for reactor VVER-TOI (V-501)	57
	5.5 Fuel assemblies for reactors RBMK	59
	5.6 Fuel assemblies for reactors BN-600	63
	5.7 Fuel assemblies for reactors BN-800	64
	5.8 Fuel assemblies FA-SQUARE for reactors PWR	65
CHAPTER 6	COMMERCIAL AND ECONOMIC PERFORMANCE INDICATORS OF RUSSIAN FA MANUFACTURING INDUSTRY	69
	6.1 FA manufacturing and supply data	69
	6.2 Directions of nuclear fuel deliveries, major consumers of nuclear fuel, portfolio of orders. Structure of sales by directions of deliveries in dynamics	71
	6.3 Results of the financial and economic activities of Russian nuclear fuel (pellet and FA) manufacturing industry	74
CHAPTER 7	STATUS AND DEVELOPMENT PROSPECTS OF THE FA COMPONENT AND FA MANUFACTURING INDUSTRY IN UKRAINE	76
CHAPTER 8	STATUS AND DEVELOPMENT PROSPECTS OF THE FA COMPONENT AND FA MANUFACTURING INDUSTRY IN KAZAKHSTAN	81
	8.1 Guidelines of the State Program for the Development of Nuclear Industry in the Republic of Kazakhstan for 2010-2020	81
	8.2 Current status of Kazakhstan's nuclear fuel and FA manufacturing industry	81
	8.3 IBR™ outlook for the development of Kazakh nuclear fuel and FA manufacturing industry	83
APPENDIX 1	RUSSIAN EXPORT OF FA: 2006 (QI) – 2015 (QI)	85
APPENDIX 2	JSC "TVEL STRATEGIC OBJECTIVE & GOAL. METHODS & MEETING OF OBJECTIVE & ACHIVING GOAL	97
APPENDIX 3	TECHNOLOGY OF NUCLEAR FUEL AND FUEL ASSEMBLY FABRICATION	100
APPENDIX 4	ACCIDENT TOLERANT FUEL: STATE AND PERSPECTIVES OF R&D WORK IN RUSSIA	113
APPENDIX 5	AVERAGE EXCHANGE RATE \$/RUR & EUR/RUR IN 2003 – 2015	115

List of Tables

Table 1.1	List and functions of enterprises in the Russian FA fabrication industry
Table 2.1	Dynamic pattern of nuclear fuel fabrication (pellets, FA) in terms of fuel weight (tons) in the period of 2014-2030, Plans of Fuel Company (JSC TVEL), SC Rosatom
Table 2.2	Dynamic pattern of nuclear fuel output (pellets, FA) in terms of FA pieces in the period of 2014-2030, Plans of Fuel Company (JSC TVEL), SC Rosatom
Table 2.3	Dynamic pattern of installed capacity in technological conversion stages of Fuel Company (JSC TVEL), SC Rosatom, in the period of 2014-2030. Plans of Fuel Company (JSC TVEL), SC Rosatom
Table 3.1	Dynamic pattern of nuclear fuel fabrication (pellets, FA) in terms of fuel weight (tons) in the period of 2014-2030, IBR™ forecast
Table 3.2	Dynamic pattern of nuclear fuel output (pellets, FA) in terms of FA pieces in the period of 2014-2030, IBR™ forecast
Table 3.3	Dynamic pattern of installed capacity in technological conversion stages of Fuel Company (JSC TVEL), SC Rosatom, in the period of 2014-2030. IBR™ forecast
Table 4.1	A year-wise list and amount of financing along with planned results of R&D and investments into development of technology and construction of infrastructure for production of oxide fuel and high-density uranium-plutonium mixed fuel
Table 5.1	Fuel assemblies for reactors VVER-440. Stages of development
Table 5.2	Engineering & technological tasks to be solved to raise reliability of FA for VVER-1000, and corresponding engineering & technological solutions applied while developing Gen II-, Gen III-, and Gen IV fuel assemblies for VVER-1000 to ensure their reliability
Table 5.3	Development of fuel assemblies for reactor VVER-1000
Table 5.4	Differences in designs of fuel assemblies FAA and FA-2 for reactors VVER-1000
Table 5.5	Characteristics of basic and perspective designs of fuel assemblies for VVER-1200
Table 5.6	Basic parameters of cores in reactors VVER-1200 and VVER-TOI, and fuel assemblies for cores in those reactors
Table 5.7	Basic characteristics of standard and perspective types of fuel assemblies for RBMK-1000
Table 5.8	Basic characteristics of FA for BN-600
Table 5.9	Basic characteristics of uranium FA for BN-800
Table 5.10	FA-SQUARE characteristics vs. foreign analogues
Table 6.1	Data on the actual volume of FA manufacturing in Russia in 2006-2014, FAs per year
Table 6.2	Data on the actual volume of ceramic fuel pellet fabrication in Russia in 2006-2014, tons per year
Table 6.3	Supplies of nuclear fuel components and FAs for Russian- and Western-designed nuclear power plants (NPP)
Table 6.4	Results of the 2014 foreign economic activities under international cooperation projects in the field of the NFC front end

Table 6.5	Comparison of JSC TVEL's financial performance indicators in 2006-2014
Table 6.6	Distribution of JSC TVEL's consolidated foreign sales proceeds for 2010-2014
Table 6.7	Distribution of JSC TVEL's consolidated proceeds from foreign sales of nuclear products (LEU, pellets, FAs) for 2010-2014
Table 8.1	JSC NAC Kazatomprom's plans and the IBR™ outlook for the development of the nuclear fuel and FA manufacturing industry in Kazakhstan
Table A.1.1	Russian export of FA: 2006 (Q1) – 2015 (Q1)
Table A.5.1	Average exchange rate \$/RUR & EUR/RUR in 2003 – 2015
