### **About International Business Relations, LLC (IBR™)**

The IBR™ was established as the consulting and engineering Company acting in the fields of nuclear Power Engineering and its fuel cycle both in Russia and in the NIS. Working in close cooperation with the domestic and foreign business partners the Company provides a broad array of integrated services that enhance the worldwide commercial developments. With vast experience of the staff IBR™ is prepared to meet all requirements of customers.

Now the IBR™ is an experienced, steadily operating and developing Company. The IBR™ personnel possessing perfect knowledge of the Project Management is in a position to solve the most complicated tasks in various fields of science and industry.

The IBR™ is proud of its collaboration with the national and overseas partners including many worldwide known companies and organizations.

**The IBR™ is looking forward for your continuous support and encouragement**
